She is out of an Illinois state reserve champion female shown by Mathers Bros. one complete season at all of the major shows placing within the top four places every time lead out. A half-sister out of this same cow has won many blues for us and stood right at the top two years shown at Chicago. This reifer has not been highly fitted but will make a thick, low-down cow with a lot of substance. Sells open as she will be just right to breed for an early junior calf.

Note that a total of 22 bulls are to be offered in this sale. They are royally bred and come from the strongest herds in the strongest Shorthorn state. It will be the ideal place to solve your herd bull problem. Remember the date March 4.

HSF Rosewood 8th—Truly a foundation female we are reluctant to sell but we like to sell good ones as a top advertisement of our herd. These daughters of Bridegroom 2d all look good. Notice that her dam is a granddaughter of the great Glassingall Research. We will sell this heifer with mating privilege to MV Lucky Bonspiel, senior and reserve grand champion, 1954 International, reserve junior champion, 1953 International, and twice a Chicago blue ribbon winner.

Consistently year after year you find the Shore Acres name in the pedigrees of top producing cattle in all categories. Shore Acres bulls are good sires. . . Shore Acres females are dams of top prize-winners both in the breeding classes and in the steer classes. This shows the cow herd in its working clothes. It is such females as these that produced Lots 23, 26, 28 and 40 for Arnold Bros., owners.

Standard Guarantee

OF

AMERICAN SHORTHORN BREEDERS

ASSOCIATION

1. Proper care must be given by purchaser to protect breeding qualities and health of guaranteed animals.
2. All bulls are guaranteed breeders, provided they are not allowed to serve when under 14 months of age, or not allowed to run with the herd when under 20 months of age. In case of failure of a bull to be a breeder notice shall be given to the seller within six months of date of purchase, or by the time the bull is 20 months of age, if purchased under 14 months of age.
3. With the exception of heifers sold under 14 months of age, all females are guaranteed breeders. Heifers under two years of age shall not be served by a heavy or old bull. Cows or heifers sold as bred, or safe in calf, not proving to be in calf must be reported to the seller within three months after date of sale. Females over 14 months of age sold open, not settling within six months after date of sale, shall be promptly reported to the seller.
4. When an animal fails to comply with the above guarantee the seller has the option of substituting an animal of equal value to the satisfaction of the purchaser, or of having the animal returned for a trial for a period not to exceed six months. The expense of freight in such case is to be paid by the seller. If the animal is then proved to be a breeder beyond doubt it shall be returned to the purchaser at his expense. In case of dispute the return of the full purchase price, without interest, to the buyer will be considered full settlement and satisfaction of all claims. No charge for feed or maintenance shall be made by either buyer or seller. Salvage shall go to the seller. It shall be understood that the same guarantee given for the first animal shall likewise apply to any animal later substituted.
5. All animals are sold to comply with the laws regulating Tuberculosis and Bang's disease of the state or county into which they may be shipped.
6. Certificates of registry and transfers will be furnished with each animal sold. A signed pedigree application for unborn calves should be furnished with bred females, showing names and record numbers of sire and dam, as well as service date.
7. Shipment will be made as soon as possible after the close of the sale, but at purchaser's risk of loss or injury after animal is bid off. Where cattle are sold at private treaty the above terms should apply as well as for sale at auction.

All animals sold in this sale will be backed by the above Standard Guarantee.

As a safeguard to prospective buyers, every animal has successfully passed a clean abortion blood test within 30 days prior to the sale, or will have Certificates of Bang's Calfhood Vaccination, and those that are not from Accredited herds have passed a clean Tuberculin test within the same period. Health certificates will be provided with each lot sold.
